Dear Ms. Greeney:

Please find enclosed a petition that I failed to include in last week's letter.

Not much opposition to the proposed incineration process at Arkwood showed at the July EPA meeting. There now appears to be a great deal of concern from the citizens of the City of Omaha and the parents of the Omaha school children about incinerating so close to the school. The general feeling is that since so much time has lapsed in the process to date and with the lack of impatience displayed at the last meeting by this group of concerned citizens, it would be in keeping with the overall community feeling for EPA to search for other alternatives and studies. The ISV process sounds better to us.

I feel there will be additional petitions; and as I receive them, I will forward them to you.

Sincerely,

*Jake Arnold*
